POWERplus® Albatross FLEXIBLE SOLARCELL 15V/10W

New solar technology combined with the ease of mobile energy generation: this is the POWERplus Albatross

This highly efficient solar cell is able to generate 10W of energy in sunny conditions, but even in normal daylight this solar cell can generate electricity.

Light weight, foldable, durable and rainproof. This is the best solar cell available for mobile energy.

Powerful 10W solar cell

Full accessory set included

Rainproof connections

Nylon transportation bag

Technical details:

Peak Output	10W
Output Voltage	15V
Output Current	0.67A
Measurement	265*950mm
Weight	0.45 kg
