POWERplus® Toucan

SOLAR MP4 PLAYER

4 GB MEMORY

Enjoy the exciting world of multimedia wherever you go using natural sunlight and daylight!

POWERplus® introduces the Toucan, a solar rechargeable MP4 player with 4 GB internal memory.

The Toucan charges in sun-, day- or artificial light by using the integrated solar panel. Automatically charge your MP4 player by facing the solar panel towards the light. Of course, you can also charge the Toucan by USB-port or with the included AC adapter.

The Toucan comes with 4 GB internal memory to ensure that you always have a huge multi media library available on this compact and good-looking MP4 player. You can even expand your memory by using SD mini cards, in the Toucan SD-card slot.

Solar Power

2 inch TFT screen

Expandable by mini SD card
